**Air Resources Technical Support Document**  
**Colorado River Valley Field Office**  
**Resource Management Plan Revision**  
**Revised August 2011**

During a review of the Air Resources Technical Support Document (ARTSD) posted on the BLM/CRVFO website concurrently with posting of the Draft RMP/EIS, the BLM found that some corrections and clarifications made prior to posting had not been incorporated as intended. The correct final version of the ARTSD has now been posted. The air quality impacts analysis section of the Draft RMP/EIS (Section 4.2.1) used the correct information and therefore is unaffected by these changes.

The correct final version (Revised August 2011) contains changes that affect the following:

Table 1 on Page 1-8  
Page 2-3  
Table 2-3 on Pages 2-6 and 2-7  
Pages 2-13, 2-15, and 2-16

Changes were also made to the Table of Contents and the List of Tables to reflect the changes to pagination. Some of the pages listed above do not include corrections but required reformatting to accommodate additional text.

The BLM regrets that the incorrect version of the ARTSD was posted on the website.
